Petition to the House of Commons in Parliament assembled, WHEREAS

Canadians want an end to the implementation of the Klaus Schwab Great Reset plans in Canada.

- Klaus Schwab – "Covid-19: The Great Reset" is a private foreign corporate plan that is being adopted by the Canadian government without constituent consent nor consensus;
- Groups under the UN umbrella like The World Economic Forum have developed plans on how to implement these goals as seen in Klaus Schwab's book "The Great Reset" and these plans are offensive to Canadian Constituents;
- Scenarios for the Future of Technology and International Development, written in 2010 by the Rockefeller Foundation, page 18 Lock Step – suspiciously portrays a pandemic resulting in fascist control;
- Economist Ernst Wolff believes that a hidden alliance of political and corporate leaders is exploiting the pandemic with the aim of crashing national economies and introducing a global digital currency;
- Build Back Better slogan of Klaus Schwab is a key phrase meaning better for the 1% and worse for 99%;
- The Magna Carta of 1215 was the first Charter of Rights for our civilization and Klaus Schwab's plan would destroy the very root of our modern rights and freedoms in Canada;
- According to Peter Koenig – a geopolitical analyst - "The Great Reset, will reduce the world to 'modern' feudalism";
- Klaus Schwab's forth industrial revolution is the blueprint for a complete transformation of the world economy. There will be no money, no private property, no democracy. Instead, every key decision — what you do for a living, how much stuff you consume, whether you can take a vacation — will be decided for you by a remote, unaccountable, unelected elite of 'experts' - this is offensive to Canadian Constituents;
- The WEF's (World Economic Forum) vision for the future is a disingenuous, dishonest manifesto from an unelected ruling class – Canadian Constituents choose not to follow their technocratic dictatorship;
- Canadians want these private foreign corporate groups and their policies removed from Canadian politics;
- The proposed Agendas centralize control of every aspect of Canadian lives to these Stakeholders. Canadians are not interested in handing over control to the United Nations, WEF, nor any foreign entity;
- These private foreign corporate entities and bankers envision a Chinese style social credit score controlled by a central digital banking scheme complete with a backdoor to deny citizens access for non-compliance;
- Canadians choose to instead to have an active voice in decisions in Canada by Canadian Constituents to make such important narratives and policy of a Great Reset;
- Albert Einstein once quipped that "No problem can be solved from the same level of consciousness that created it". The 'build back better' notion at the heart of the "Great Reset" – indeed, all government visions today – is a doomed project for this reason. We, the Canadian Constituents, must be part of the solution, not the object of elite largesse;
- A review of The Great Reset by **Steven Guinness (UK)** reveals the same old language of 'interdependence', collaboration and cooperation that was heard from the Trilateral Commission in 1973. The then-and-now goal is Sustainable Development, aka Technocracy, and will result in the biggest resource grab in the history of the world." ;
- Canadians have already lost control and accountability of our resources in the Public Private Partnerships and are not willing to hand over our sovereignty, rights and freedoms to foreign interests;
- The Canadian Constituents want an open dialogue with MP's to build an alternative Great Reset;

We, the undersigned citizens and residents of Canada call upon the House of Commons and the Senate to:

- 1. Desist implementing the private foreign corporate UN, WEF, Klaus Schwab Great Reset in Canada;*
- 2. Immediately create a Forum to create a dialogue to gather and implement Constituent Reset Ideals for Canadians in Canada;*
- 3. Call upon all **Members of Parliament** to follow Canadian Law and represent your Constituents instead of foreign corporate private interest;*

Canadians feel our government has been representing foreign entities like the UN and World Economic Forum and demand the interests of Constituents be followed instead.
